

Barjac Construction Management is looking to fill **Heavy Equipment Operator** positions for commercial projects located within the City of Calgary and the surrounding area.

Barjac is a year round employer with an emphasis on summer construction season. Work is based on a 44-hour work week, but overtime and weekends are customary. Our project scope includes deep services, site grading, foundation excavation, parking lot prep, building equipment installations, building undergrounds, and slab prep.

Responsibilities include:

- Operate different types of equipment including, but not limited to, excavator, dozer, loader, skid steer, and packers to efficiently complete assigned tasks.
- Reading grade stakes and plans.
- Assist ground crews when required.
- Work and follow instructions given by crew foreman and superintendents.
- Work together as a team to accomplish the project goals.
- Work within the safety parameters as outlined in the company safety manual.
- Have a valid driver license.
- Be able to travel to various sites in and around Calgary.

Experience:

- 3-5 years of experience in heavy equipment operation.
- Have experience operating multiple pieces of equipment performing the tasks pertaining to our scope of work.

Safety training is an asset.

There is always opportunity for advancement in our earthworks department.

Employee benefits and a gym membership are offered after a probationary period.

**Successful candidates will undergo post-offer physical demands analysis and drug testing for all controlled substances. Please do not apply if you use drugs.**
